1. Cancel non-elected claims 15-21.

**Examiner's Comments**

Applicant's arguments in the Amendment and Response received December 28, 2005 have been fully considered and are persuasive. The examiner's basis for allowability is the same as those set forth within that Response.

For applicant's information, the 112 rejection of claim 8, set forth in the prior office action has been withdrawn based upon applicant's arguments of December 28, 2005 which arguments are persuasive.

For applicant's further information, applicant's independent claim 1 is allowable with respect to the cited reference Schaedeli patent number 6,280,511. Specifically, this reference does not disclose an optical device specifically wherein the device is a display

comprising an optical region which consists of a plurality of first parts and a second part as claimed.
